PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1 years of hands-on experience building scalable, high-performance web applications using MEAN and MERN technology stacks. Specialized in **React.js, Node.js, and API's MongoDB** with expertise in **SQL databases, Docker and Express.js** . Proven track record delivering enterprise-grade solutions including ExportTech platforms, chat applications, and real-time systems. Strong foundation in **RESTful APIs, WebSocket communications, and microservices architecture**. Experienced in **Agile environments** with demonstrated ability to lead technical initiatives and optimize application performance.

CORE TECHNICAL SKILLS

Frontend Technologies:
React.Js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, RxJS

Backend Technologies:
Node.js, Express.js

Databases:
MongoDB, PostgreSQL, MySQL, SQL

Cloud & DevOps:
Docker, AWS, Git, Postman

Security & Authentication:
JWT, Single Sign-On (SSO), OAuth

Methodologies:
Agile, REST APIs, WebSocket, Real-time Applications

PROFESSIONAL EXPERIENCE

Full Stack Developer
February 2025 – September 2025

Meta Products & Services

EXPORT Merchant Portal (Coconut Business Platform)

- Architected and developed **role-based React portal** for merchant onboarding, processing 1000+ daily export transactions
- Implemented **React Signals and OnPush strategy,** improving application performance by 40%
- Built **dynamic form components** with lazy-loaded modules and custom routing guards
- Developed **encryption/decryption logic** for sensitive transaction payloads, ensuring PCI compliance
- Created **real-time merchant dashboard** with orders transaction history, automated reports, and live updates
- Applied **design patterns** resulting in 60% reduction in code duplication and improved maintainability
- Developed **React dashboards** with dynamic charts for real-time business continuity tracking
- Integrated **SSO-based authentication** and implemented maker-checker workflow for secure approvals
- Built **Excel data import functionality** for bulk MIS entries, reducing manual data entry by 80%
- Utilized **React Material and reactive forms** to create modular, responsive UI components
- Implemented **role-based access control** with secure routing and session management

Full Stack Developer
August 2024 – September 2025

Mesbro Technologies

MESBRO B2B & Communication Platform

- Built comprehensive **B2B marketplace** using React.js, Bootstrap, and RxJS with 500+ active users
- Developed **real-time chat application** using WebSocket for one-to-one and group communications
- Implemented **product comparison, cart management, and Razorpay payment integration**
- Created **user profile management** with image uploads, audio messages, and video call support
- Utilized **reactive forms and observables** for seamless state management across modules

KEY PROJECTS

PT. International Mandiri Expo

Technologies: Node.js, React.js, WebSocket, Real-time Communications

- Engineered **Node.js backend** with WebSocket implementation for export-directional real-time location
- Developed **React dashboard** for live orders updates, transaction history and operational command interface
- Built **real-time export status tracking system** displaying location from starting point to ending point GPS coordinates
- Implemented **command queuing mechanism** ensuring reliable orders operation and fail-safe protocols

Mesbro Application

Technologies: MEAN Stack, React.js, Bootstrap, and RxJS/

- Designed chat platform with **multi-role dashboards** for users and admin users
- Built a product comparison, cart management and Razorpay payment integration.
- Developed **chat management module** with chat plans, chat history, and progress tracking
- Implemented **user profile management access control** with image uploads, video call and audio messages support management
- Created **automated reporting system** for clinic analytics and patient outcome tracking

EDUCATION

HSC 12th SCIENCE, Mumbai, MAHARASHTR — *July 2022*
Mumbai University

Bachelor of Computer Science — *November 2025*
University of Mumbai

KEY ACHIEVEMENTS

- ✅ **Enterprise Solutions:** Successfully delivered Export Merchant Portal for PT. International Mandiri Expo, handling high-volume transactions
- ✅ **Performance Optimization:** Achieved 40% performance improvement using React Signals and OnPush strategy
- ✅ **Security Implementation:** Implemented robust JWT and SSO authentication for export applications
- ✅ **Real-time Systems:** Built WebSocket-based applications for export control and chat communications
- ✅ **Process Automation:** Reduced manual data entry by 80% through automated Excel import functionality
- ✅ **Code Quality:** Applied design patterns resulting in 60% reduction in code duplication
